No refund will be made if the customer's bill is delinquent at the time of the recalculation.

MONITORING OF CUSTOMER USAGE

Once a month the Company will monitor the usage of each customer according to the following procedure:

1. Monthly computer print outs of customer usage variance will be reviewed. Those customer's with a high usage variance will be investigated.
2. If the monthly usage variance is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the monthly usages differ by 50% or more and cannot be attributed to a readily identified common cause, the Water Company will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter readings and billing records, the Water Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the Water Company will test the customers meter to determine whether it shows an average error greater than 2% fast or slow.
6. The Company will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 Kar 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the Water Company will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.

REQUIREMENTS FOR A NEW TAPP:

1. Sign a water user agreement and pay the required tapp fee.
2. LCWD#1 requires new customers to pay a minimum cash deposit of \$35.00 to secure payment of bills. This deposit should not exceed the average bill of residential customers served by the Company and is equal to 2/12 of the average annual bill. After 18 months, at your request the Water District will recalculate your deposit every 18 months based on your actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer, or by more than 10% for a nonresidential customer, the Company may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation. Interest accrued on the deposit will be credited to the customers bill on a annual basis.
3. A plumbing permit and inspection must be obtained for a new water service. The plumbing inspector may be reached at the LaRue County Health Department in Hodgenville on Wednesday mornings at 358-3844.
4. Mark the desired location for the meter. The meter location must be in agreement with the water district.
5. SERVICE LINE INSTALLATION:
 - A. Must be 3/4" service line.
 - b. Must be at least 160 psi.

 - e. Copper or brass fittings must be used when connecting to the meter or valve.
